Dear Healthcare Compliance Packaging Council:

As a past recipient of your HCPC Scholarship, I wanted to give you an update on my life and education. I also feel like it is the perfect opportunity to thank you for your generosity.

I have officially entered into my sophomore year at Michigan State University. After a long summer of taking 11 credits online, it is nice to be back in a much more personal setting. I am already really enjoying this year academically because I am finishing up all of my required prerequisites and moving into my Package Design classes. I can really see why MSU's Package Design program is number one; the professors are really fantastic, the classes are interesting and you aren't just a number to them. I couldn't be happier with my decision to be studying Package Design at MSU.

With all of that being said, I wouldn't even have had the opportunity to be here if it wasn't for generous contributions such as the one you provided. Even though MSU's cost of attendance was higher than any other schools I looked at, I knew I belonged here and you helped make that possible. I hope that one day I can assist future packagers just as you have helped me. Once again, thank you for choosing me and know that your help is genuinely appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Charlotte Seeley". The signature is fluid and cursive, with a large initial "C" and a long, sweeping tail.

Charlotte Seeley

Dear Mr. Berghahn

I am writing this letter to thank you for the Healthcare Compliance Packaging Council (HCPC) Scholarship I was awarded. I am so honor that I received this scholarship again as a student that focusing on the healthcare packaging.

At the first time when I got this scholarship, I was a master student and finishing up my thesis. At that time, this scholarship encouraged me to pursue my degree here and have the stronger responsibility for my research, so now I am a Ph.D candidate that focusing on healthcare packaging as well. With this scholarship, I will motivate myself to do research harder and figure out what is the best for humanity.

Thank you again for your generosity. I will keep this honor in my mind and try all my best.

Best Regards,

Jiyon Lee
